DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The invention is directed to a composition (or a device containing such composition) comprising a condensation product obtained by hydrolysis and condensation in the presence of a basic catalyst, of one or more silane compounds and one or more crosslinking agents according to formula:

wherein **n is either 3 or 4**, i.e., a compound necessarily containing either 3 or 4 functional Si atoms. While composition and films obtained by using crosslinking agent containing two functional silane atoms are known in the art as per disclosure of, for example, Hayashi, films obtained by using three or four functional silane atoms are not disclosed or suggested in the art. The applicants have shown that utilization of crosslinking agents with higher (n=3) number of functional silane atoms results in films different from films obtained using crosslinking agents having 2 silane functional atoms.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irina S. Zemel whose telephone number is (571)272-0577. The examiner can normally be reached on Monday-Friday 9-5.
